FEIN benefits

- > Extremely wear-resistant and durable tool concept thanks to brushless motor as well as high material quality and workmanship. Designed for up to 60,000 holes during a 300 h usage period.
- > Small and light tool with increased work progress of up to 25%, offering unique productivity and battery life compared with the competition. Using 18 V 12 Ah AMPShare ProCORE batteries, up to 48 holes can be drilled per battery charge (carbide core drill bit, diameter 18 mm, S235 12 mm).
- > Weighing 12.2 kg, it's the lightest cordless universal core drill in the world. Maximum flexibility for all mobile drilling work, such as core drilling, twist drilling, tapping, countersinking and reaming thanks to forward/reverse running, electronic speed setting and a 260 mm stroke range.
- > Intuitive operating concept avoids mix-ups and can be clearly seen by the user.
- > Convenient magnetic holding force display helps the user to reliably position the tool.
- > Tilt sensor stops the drill motor when the tool slips or tilts.
- > MT2 tool mounting for direct use of industrial tools.
- > Secure positioning thanks to extra narrow permanent magnet with magnetic bias for convenient and simple alignment.
- > Speed saving "memory function".
- > Compatible with Bosch Professional 18 V batteries (available since 2008) and AMPShare batteries.
- > COOLPACK 2.0 technology delivers a 135% longer battery life and therefore makes longer operating times possible.
- > State-of-the-art cell technology and intelligent battery management deliver 87% more power than with conventional batteries.
- > ProCORE Li-Ion battery with high-power cells, charge status indicator and "Electronic Cell Protection" (ECP). ECP protects against overload, overheating and total discharge.
- > * Also available with accessories.
- > ** Outstanding performance with AMPShare ProCore 18 V 8.0 Ah / 12.0 Ah
