

Fein Vice (VersaMAG)

The mobile vice can be fitted on the FEIN VersaMAG permanent magnet in a flash and brings a whole new dimension of flexibility to the world of clamping forces. Thanks to interchangeable clamping jaws of various heights, even larger materials, such as sheet metal and pipes, can be clamped in a flash (clamping width up to 108 mm, jaw width 100 mm). The unique modular system ensures a secure hold in various situations. Only compatible with the FEIN VersaMAG permanent magnet (32172050020).
