Series pressure clips

with pre-fitted nail anchor

Series pressure clips are used to secure cables and wiring to ceilings or walls. Their push-on cover firmly encloses the cables. The clip has a 5 mm slotted mounting hole and can be secured, for example, using an M6 threaded knock-in anchor or a nail anchor. The slotted hole allows positional adjustment. All sizes can be connected to one another.

CE ✓ | halogen free | silicone free | Max. 750°C | PP | RAL 7035

CAPACITY IN MM	PACK QTY	CTN QTY	ARTICLE NO.
6 – 13	50	2,700	301460
12 – 20	50	1,500	301461
16 – 26	50	1,500	301462

Series pressure clips are supplied with a pre-fitted 6 mm all-plastic anchor. After drilling the hole, simply press the anchor into place; no additional tools are required. Our HUP XpressFixx® products enable strong, accurate and particularly quick installation.
