# Cavity wall device boxes

## Small-pack packaging

## (25 pcs packed in a poly bag)

Cavity wall device boxes are designed for installing electrical devices in drywall. They can also be used as junction boxes by fitting a universal cover. They securely accommodate sockets, switches, network outlets and other built-in devices, ensuring firm installation in accordance with the applicable standards. The boxes are inserted into cut-outs in the drywall and securely clamped using the integrated lugs. Device screws with a combination cross-head/slot drive allow faster installation.

VDE ✓ | CE ✓ | silicone free | IP30 | Max. 850°C | PP | RAL 2000

| HEIGHT IN MM | Ø IN MM | PACK QTY | CTN QTY | PALLET | ARTICLE NO. |
|---|---|---|---|---|---|
| 48 | 68 | 25 | 200 | 7,200 | 306048-KV |
| 61 | 68 | 25 | 150 | 5,400 | 306067-KV |

Small-pack packaging uses a compact, easy-to-handle outer carton. Unlike bulk packaging, the products are packed in bags in the specified pack quantities. The minimum order quantity is 1 pallet or a multiple thereof.
