Metal collection clamps

Metal collection clamps secure cables and wiring to walls and ceilings. They are fastened in a pre-drilled hole, for example with a nail anchor. To secure the cables, open the clamp, insert the cables and close it again. Cables can be added at any time. The clamps offer a high capacity of 15 cables of 3 x 1.5 mm² or 30 cables of 3 x 1.5 mm².

CE ✓ SV

CAPACITY IN MM²	PACK QTY	CTN QTY	ARTICLE NO.
3 x 1.5 x 15	50	1,000	309215
3 x 1.5 x 30	25	350	309230

The material provides high heat resistance. The collection clamp is suitable for wall and ceiling mounting.
